Supervisor called Public Hearing to order at 6:30 PM

Welcomed the Public and explained the purpose of the Public Hearing

Supervisor turned the floor over to Todd Hodgson Project Engineer, Todd gave presentation on the history of the Water System and map of Water District. Discussion on the current water lines, valves and well system.

The income survey is very important to verify the level of the project that would be allowed to be done.

All Pearl Street water pressure would be improved.

We must have an accurate immediate household income before a Grant Subsidy would be considered.

Susan Kennedy informed Public that a history of the Town of Crown Point Water System must have a comprehensive Project.

Jodi Olcott of Essex County IDA stressed the importance of the income survey, the Town's ultimate goal would be to reduce the cost impact on the residents.

A new water metering system is also needed and the town water billing rate is very low.

panel for their attendance and presentation.

Supervervisor adjourned Public Hearing at 7:30 PM

Attest to:

Linda L. Woods
Town Clerk
